Wicksteed - Naturally

Supermoto Circuit

for BMX and stunt biking
Age range 10 to adult

BMX (Bicycle Motor Cross) and stunt biking is just as beneficial as more traditional sports, in terms of healthy exercise, skill development and the competitive spirit.

Wicksteed design and build BMX Tracks to individual requirements and help to consult and liaise with local user groups, from the design concept of the BMX Track through to the building stages. In this way, we help ensure the new facility is liked and used by the young bikers in your community.

Chicanes, jumps, rumble strips, weaving posts and berms (banked turns) can be incorporated to suit each particular site, operator preferences and what the enthusiasts and beginners actually want. The content and materials are subject to local site conditions and a site survey by a Wicksteed Contracts Manager is recommended prior to specification.
